OVERLAP EDGES SIMPLIFY DECORATIVE PANEL INSTALLATION

GRATON, CALIFORNIA – Ceilume introduces two new styles of decorative tiles that simplify installation on ceilings and walls; their unique, overlapping edges eliminate need for trim strips to cover joints between the 24 x 24-inch thermoformed vinyl tiles. “Nantucket” and “Manchester” are offered in a variety of colors plus faux metal and wood finishes — some with 98 to 100 percent recycled content. Tiles are lightweight, Greenguard Gold certified for low VOCs, washable, and Class A-rated. Use them to create dramatic and affordable effects on ceilings or accent walls. www.ceilume.com

###

ABOUT CEILUME

Ceilume is the leading manufacturer of thermoformed ceiling tiles and panels. The company's predecessor dates from the early 20th Century and was a pioneer in the invention of the modern suspended ceiling. The family-owned business is located in Graton, CA in the heart of California's wine country, and occupies a historic apple-packing warehouse. With an eye on the future, Ceilume has invested in advanced manufacturing equipment and an active R+D program to create improved ceiling and wall finishes to meet changing environmental, performance, and aesthetic expectations. www.ceilume.com
